Sindos, Thessaloniki Industrial Area
PO Box 50370, 54013 Thessaloniki, Greece

In Charge: **Mrs Maria Koloni** Tel.: +30 2310 253173 / Fax: +30 2310 253169
email koloni@exposystem.gr

STEP 1: Collecting information

Our aim is to maximize the impact of your products and services. Once you provide our marketing experts with an all-inclusive brief of your exhibition needs and intentions, we proceed in visualizing an exhibition stand tailored and relevant to your corporate image and marketing goals.

STEP 2: Design Proposal

Our in-house creative team turns your initial brief into full-scale reality. Based on your objectives and desired outcome, we prepare a proposal that matches your brand values and allocated budget.

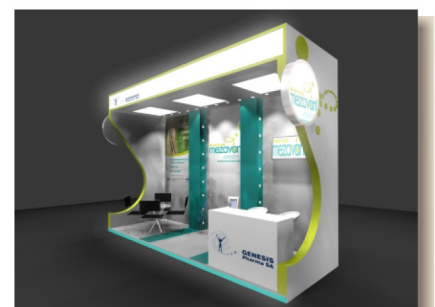

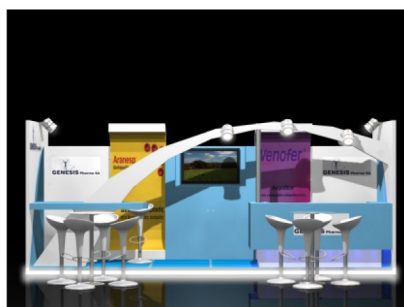

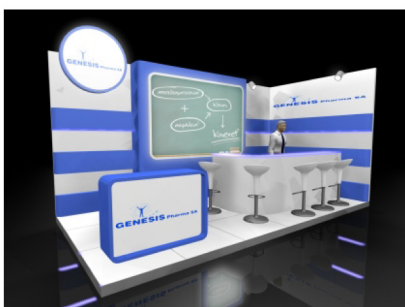

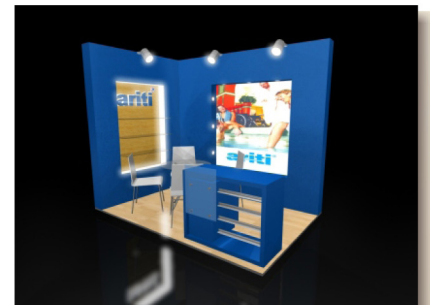

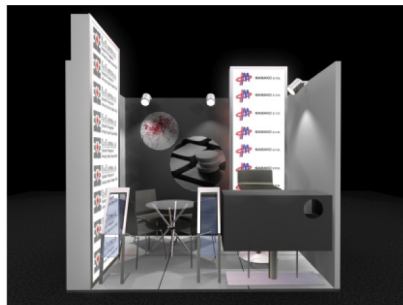

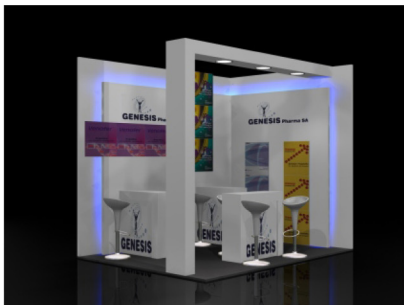

STEP 3: Production Execution Delivery

As part of the project management's procedure, we will liaise with your company's marketing executives in order to finalize the particularities of your stand, which one will then be produced in our factory.

Our company is fully committed in meeting tight deadlines and delivery dates, solving problems and providing technical support on site, in order to achieve an end result that exceeds expectations.

STEP 4: After-sales Service

After the closure of the exhibition, our expert team of builders will carefully dismantle the stand, do the packaging and transport it back to our premises. In case you require the repetition of your stand in another exhibition, we will keep it in our warehouse.
